

Mestieri legati agli animali

    
Molte persone lavorano con gli animali ,

   
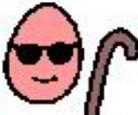

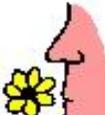

nelle fattorie, nei circhi, negli zoo ma anche

  
in negozi e ambulatori.

Addestratore di cani

    
L'addestratore di cani insegna degli esercizi per odorare,

     
rincorrere e fermare i ladri . Altri cani aiutano

   
i ciechi a camminare e cercano con il fiuto

   
persone imprigionate sotto la neve

Allevatore di cani

Allevatore di cavalli

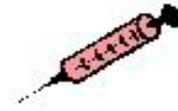

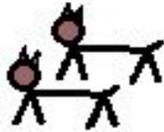

Allevatore di galline

Allevatore di maiali

Veterinario

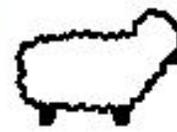

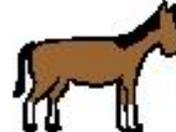

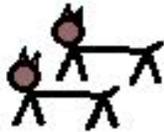

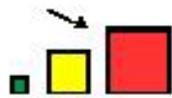

Il dottore degli animali dà medicine, fa le vaccinazioni

e le fasciature a cani, gatti, criceti e altri,

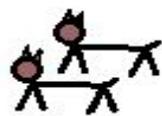

dentro un ambulatorio. In campagna guarda e cura

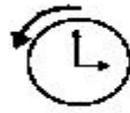

grandi animali come mucche, cavalli e pecore.

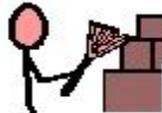

Paleontologo

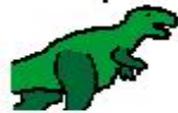

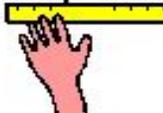

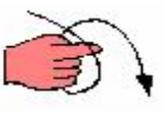

Il paleontologo cerca animali e piante che vivevano

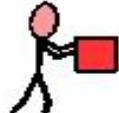

sulla Terra tanto tempo fa; scava delicatamente

la sabbia e pulisce bene con un pennello;

dopo misura le ossa dei dinosauri,

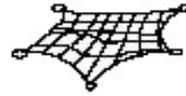

ricostruisce lo scheletro e lo porta al museo.

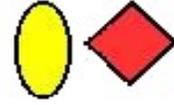

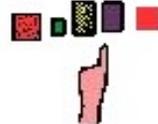

Pescatore

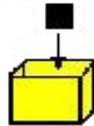

I pescatori vanno a pescare lontano con la nave

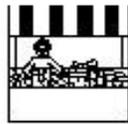

o con la barca, lasciano cadere la rete,

dopo la sollevano e suddividono i diversi

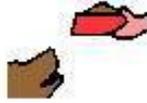

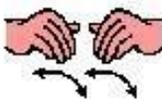

tipi di pesce, li mettono dentro a delle cassette

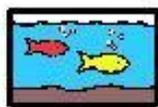

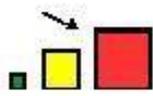

e li portano al mercato o nelle industrie conserviere.

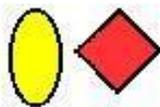

Allevatore di pesci

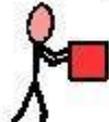

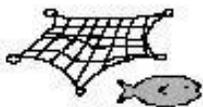

L'allevatore di pesci mette e nutre dentro

grandi vasche granchi, vongole e molti

diversi tipi di pesce ; dopo li prende dentro

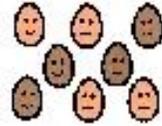

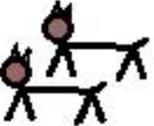

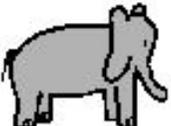

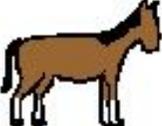

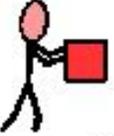

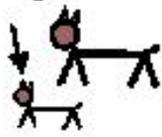

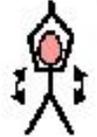

una rete da pesca e li porta in pescheria .

Zoologo

   
Lo zoologo guarda gli animali nel loro ambiente,
    
li fotografa o li riprende in silenzio dopo li studia
    
al microscopio e al computer per capire come
   
vivono e crescono ; gli zoologi sono bravi a fare documentari

Al circo

    
Dentro al circo molte persone si occupano
    
di animali come elefanti, cavalli, leoni, tigri;
    
portano loro paglia o carne, li curano,
   
danno il latte ai cuccioli insegnano esercizi per gli spettacoli .
